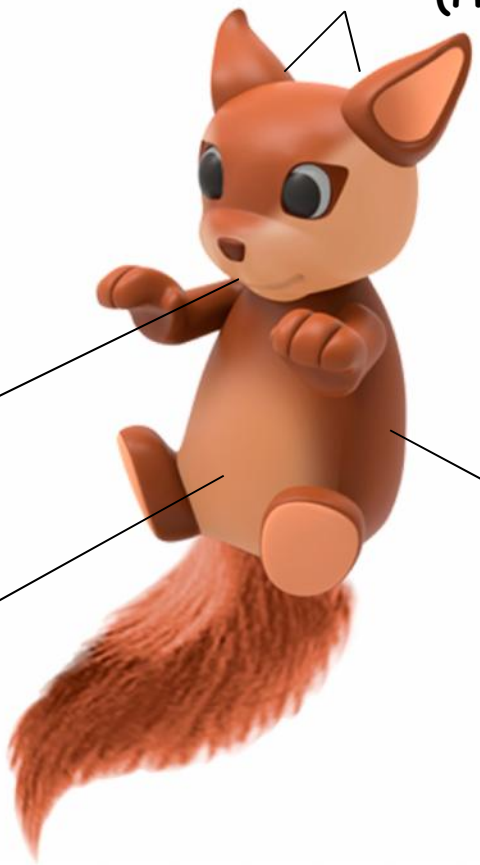
Interactive pet that reacts to your touch and motion!

What's Mommy Pockets?

Mommy Pockets are baby animals that **INTERACT** with you. They make cute noises and move and react to your touch. They have **5 sensors** and **4 modes** to play.

Look how she moves her head, eyes and tail while you interact with her!!

Sensors



2 Touch sensors
(Head)
Switch (Mouth)
Light sensor
(Back)
Mic (Stomach)

How does it work?
4 PLAY MODES

Turn on your Mommy Pocket, she will randomly be set in one of 4 different modes.

MODE 1- PLAYING MODE

Play with her by touching one of the sensors below, she will make different sound depending on the place where you touch: she will laugh, make cute noises or start sneezing!

1. Stomach (Mic Sensor)
2. Right side of her head (Touch Sensor)
3. Left side of her head (Touch Sensor)

How does it work?
4 PLAY MODES

MODE 2 – SINGING MODE

Mommy Pockets will let you know when she's in a singing mode. Touch one of the sensors below, she will sing a different song in different funny ways (wherpering, humming, faster/slower etc…) depending on the place where you touch.

1. Stomach (Mic Sensor)
2. Right side of her head (Touch Sensor):
3. Left side of her head (Touch Sensor)

How does it work?
4 PLAY MODES

MODE 3 – FEEDING MODE

Feeding mode – She starts whining so you have to feed her with a milk bottle. You'll hear her drinking sound. After giving her the milk she will have 2 different reactions by making these sounds:

1. More whining sound: She is still hungry, feed her with the bottle again
2. Burping sound: She is full, no need to feed her anymore

How does it work?
4 PLAY MODES

MODE 4 – SLEEPING MODE

Sleeping mode – She starts yawning so cuddle her by holding her by back or you can put her inside the pocket so she can fall asleep. She will have 3 different reactions by making these sounds:

1. Snoring: She is comfortably sleeping
2. Having a nightmare: You'll have to wake her up and play with her
3. Making whining sound: She is hungry, give her some milk before putting her to sleep

Totally Interactive!

Feed her, pet her, love her and play with her!

Interactive baby pet that reacts to your touch and motion. No random play, she will wait for you to react to her needs.

She's so REAL! She's so CUTE & ADORABLE!
